SUBMISSION OF SUBSTITUTE SEQUENCE LISTING

Sir:

During a telephone call of October 16, 2003, the Examiner indicated that the above-identified application is in condition for allowance except for compliance with the sequence listing requirements. More specifically, the Examiner stated that several of the nucleic acid and amino acid sequences shown at pages 12, 13, 18 and 19 are not listed in the originally filed Sequence Listing. The Examiner requested that a substitute Sequence Listing be submitted to include those missing sequences.

In response, Applicants submit herewith a computer readable form and a paper copy of a substitute Sequence Listing under 37 C.F.R. § 1.821-1.825, and a Statement Under 37 CFR §1.821(f) specifying that the Sequence Listing information

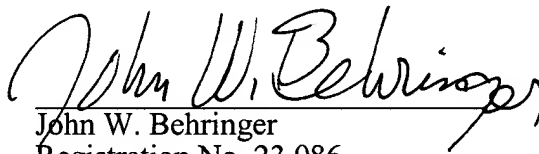

recorded in computer readable form on the attached diskette is identical to the written Sequence Listing.

Conclusion

Applicants submit that the application is in condition for allowance. Accordingly, issuance of an early Notice of Allowance is respectfully requested.

Applicants' undersigned attorney may be reached in our Washington, D.C. office by telephone at (202) 530-1010. All correspondence should continue to be directed to our address given below.

Respectfully submitted,

  
John W. Behringer
